Over \$27,000 in prizes and giveaways.

Third Party Developer Support has been unprecedented. Due to the continued generosity of past supporters and the introduction of new supporters we have managed to ensure that every one of the attendees walked away with at least 2 prizes. I would therefore like to take this opportunity to sincerely thank all the supporters for making this DevCon and training such a huge success.

Thankyou

Check out the list of supporters and the lucky winners below:
